<u>No.</u>	<u>Hazard Description</u>	<u>Categories</u>	<u>Existing Control Measures</u>	<u>Scoring/Rating</u>
186	Beach Warden - collecting rubbish - manual handling - heavy bags lifting into trailer, then into high end of refuse wagon.	Operational - Physical	Checking bins and collecting rubbish regularly to ensure bags are lighter and easier to handle. On the job training.	<b>Likelihood</b> 02 - Medium <b>Impact</b> x 02 - Marginal <hr/> <b>Rate</b> 04
<u>Other Ref</u> 2008 - b1		<u>Additional Control Measures are also recorded in the Progress Box below</u>	<u>Actions</u> <div style="border: 1px solid black; height: 100px; width: 100%;"></div>	<b>Target Likelihood</b> <b>Target Impact</b> x <hr/> <b>Target Rate</b>
<u>Objectives</u> To keep the beach clean				
<u>Financial Impact</u> None				
<u>Progress Box</u> 7/2/09 - no action required. Possible improvement to bins could include side accessed lids to reduce rainfall which increases weight within bags - JH dealing. (Action on other risks for First Aid training for Beach Wardens - JH dealing). 20/11/09 - JH arranged for a successful trial of new bin lids (supply to arrange). 1 Beach Warden first aid trained other proposed within 6 months. Both trained to use de-fibrilator carried in vehicle. Beach Wardens trained through induction and daily working procedures available. 12/3/11 - Bin lid proposals rejected due to costs. Beach wardens to continue puncturing new bags on replacement. Both wardens first aid and de-fibrilator trained.

244	Beach Warden - limited appearance at all times throughout the beach.	Strategic - Customer	Beach Warden patrols whole beach daily & attends all incidents where possible. Regular litter picking. Parks in spots to cover limited visibility across beach. Additional contacts utilized along beach to report any issues.	<b>Likelihood</b> 03 - High <b>Impact</b> x 03 - Critical <hr/> <b>Rate</b> 09
<u>Objectives</u> To keep the beach safe To provide support & advice to all beach users		<u>Additional Control Measures are also recorded in the Progress Box below</u>	<u>Actions</u> Only by having 2 beach warden vehicles and at least 2 wardens on at a time would this cover the whole 3+ mile beach - additional costs justified? Consideration for high use times.	<b>Target Likelihood</b> 02 - Medium <b>Target Impact</b> x 03 - Critical <hr/> <b>Target Rate</b> 06
<u>Financial Impact</u> None			<b>Action Date</b> 2010	

**Progress Box**

20/11/09 - although there is an action required on this, it in turn creates a financial risk which may be too high. As best and current practice Beach Wardens utilize the existing available contacts (e.g. Berrow Wardens, Cove Staff, John Horses, Ice Cream vans, refreshment units, regular beach users, etc.) to help have eyes everywhere when managing the safety of all beach users along the 3.5 mile beach.  
 Guidance/warnings provided from leaflets, tickets, signage and information cabinet (at beach entrance). Marker posts available for location identification purposes.  
 12/3/11 - Although action recorded (which includes issues during the winter), this is limited to financial restriction. JH to monitor.
